

5 from a position of said first graphical pointer utilizing a selectively defined
6 mathematical function.

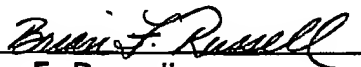

1 14. (amended) The computer program product of Claim 12, wherein said instruction
2 code for causing said data processing system to select a point within said display
3 [device] includes instruction code for causing said data processing system to select
4 a second point in response to closure of a second switch associated with said
5 second graphical pointer among said subset of said plurality of graphical pointers.

REMARKS

This Proposed Amendment is submitted pursuant to Applicant's telephone conference with the Examiner on May 7, 1997. Applicant believes that the proposed amendments to the claims set forth herein address the Examiner's concern that the "graphical pointer" recited in the present claims reads upon the scroll buttons disclosed in the prior art. Applicant appreciates the Examiner's courtesy in considering the instant Proposed Amendment and invites the Examiner to telephone Applicant's attorney at the number listed below if any additional issues can be resolved by telephone conference.

No fee is believed to be required; however, in the event any fees are required, please charge the fees to Deposit Account No. 09-0447. No extension of time is believed to be necessary. However, in the event an extension of time is required, that extension of time is hereby requested. Please charge any fee associated with an extension of time to Deposit Account No. 09-0447.

Respectfully submitted,

Brian F. Russell
